Wood Clad Windows

Choosing wood windows for your Arizona home or business involves selecting designs that will fit the style of your architecture and provide the frame for your view of the spectacular Sonoran skies and landscapes. In order to receive all of these important benefits, the windows you choose must be made from the highest quality materials. Energy Shield's wood windows are available in virtually limitless designs, to make your home's wood clad windows completely unique, to fit your creative vision.

- ***Beautiful Woods*** — For airy interiors designed to provide a fresh, light atmosphere, you may decide to choose wood species in lighter, brighter tones,

such as Pine, Alder, Maple, Cherry, White Oak, or Red Oak. Or, if your tastes run toward the more stately, stronger colors, you may choose the deep rich tones of Walnut, Douglas Fir, or Mahogany.

- **Wood Window Finishes** — Our wood staining is an advanced, multi-step process that brings out all the beauty of your wood interior. The coating process used to treat our wood window products utilizes a unique, specially formulated, two-part catalyzed polyurethane paint. Both the stain and coating are exceptionally tough, resistant to scratching and moisture.
- **Clad Colors** — Select from a wide array of solid paint color choices. Or, choose from our selection of anodized finishes for a progressive metallic look. Or, browse our textured and weathered collection of paint finishes to achieve granular effects or other luxurious, uniquely stylized aesthetics.
- **Interior Finishes** — Energy Shield's wood clad windows are finished with an advanced process to enhance the appearance of the wood surfaces. A specially formulated high-grade polyurethane paint is used for an exceptionally tough, scratch resistant finish that even resists moisture. Choose one of the many wood clad paint color selections or a wood stains for ultimate durability, in clear, espresso, toffee or other gorgeous colors.

High-Quality Glass

- **Performance Glass** — We use high-end Cardinal Glass 366 & 340 in all of our wood clad windows, to provide our customers with the very best in quality residential and commercial window products.
- **Glazing** — Glass glazing can reflect bright sunlight to let abundant natural light in while keeping a substantial amount of heat out. Quality glazing allows greater comfort and significantly increased energy efficiency. It also blocks out harmful UV rays. We offer the industry's state-of-the-art in glaze coatings. Your Energy Shield expert will work with you to determine the ideal glass for your new windows.
- **Decorative Glass** — Create your own unique designs and filter sunlight to soften the natural light in your interior, and/or add to security and privacy with decorative glass from our wide selection of glass treatments. See our lavish decorative options, such as beveled edge effects, frosting, rain effects, smooth etched effects, bronze tinting, various other tints, and a variety of other specialty glass styles.

Wood Window Trimmings

- **Interior and Exterior Trim** — Add elegance to your window presentations with one of our classic or contemporary trim styles, all constructed of highly durable, exquisitely crafted wood and metal window trim designs.
- **Grilles** — For classic charm, add a traditional wood grille, or opt for a contemporary grille design. Removable grilles are ideally convenient and budget-friendly. We can help you select from a virtually unlimited number of standard or custom concepts for grilles to divide glass expanses, from the

smallest to the largest windows.

- **Screens** — Our durable, subtle, fiberglass screens are charcoal color, and framed to match your window hardware. These high-quality screens are spring loaded, permitting easy removal and re-attachment.

Custom Wood Windows

If you are undertaking a unique architectural design project, and need a custom wood window company that can deliver the industry's best in high-end unique designs and installations to meet the most challenging configurations and manufacturing demands, Energy Shield is simply without equal in Phoenix.
